Data center efficiency

Drive business growth

Rely on education services from Hewlett Packard Enterprise to help you optimize your data center while accelerating growth and controlling risks

Overview

The data center portfolio helps drive improvements as well as cut costs in your data center, decreases downtime and errors and steps up the success rate of IT initiatives along with increasing staff and data center productivity to achieve better business outcomes.

An opportunity exists to improve the efficiency of your data center. Hewlett Packard Enterprise can enable you with a holistic approach to training.

What we offer:

- Optimized data center simulation: Set in the context of the “high octane” world of motor racing, this program will lead you to experience the business benefits that increased collaboration and process integration between “Facilities” and “IT” can bring your data center operations.
- Education services from Hewlett Packard Enterprise: We offer a robust selection of technical and service management training for all aspects of your data center.
- Facilities content for managers: Courses are designed to improve technology integration with processes that result in greater staff collaboration and productivity.

With this comprehensive training portfolio, we can help you get the most out of initiatives to virtualize your data center environment, optimize the use of facilities including energy and space, and improve business continuity. As a result of the training, you can achieve substantial benefits such as:

- Decreased operational costs for the data center
- Improved return on IT investment
- Improved collaboration among data center facilities managers and IT staff
- Reduced risk and enhanced ability to respond to issues
- Increased quality, predictability, and reliability of IT resources

By training your staff on optimizing your technology as well as business resources, you can enable higher data center operational and mechanical reliability—resulting in better quality of IT services and enhanced business confidence in IT support.

Why choosing Hewlett Packard Enterprise makes sense

At Hewlett Packard Enterprise, we work closely with leading technology companies, software vendors, and consulting firms to bring you complete, integrated solutions that address all aspects of the data center—from technology to processes. We have also leveraged mission-critical and data center services from EYP Mission Critical Facilities (MCF), now an Hewlett Packard Enterprise company, to complement our curriculum.

Having one of the world’s largest data center infrastructures, we use our learning from it to evolve our portfolio and differentiate ourselves in the marketplace in terms of knowledge, training delivery, and innovative methodologies.

Expert knowledge

We can be your one-stop-shop for content and training in Hewlett Packard Enterprise products, related topics, and industry-standard technologies, backed by 30 years experience, unmatched product expertise, and knowledgeable instructors with hands-on experience.

Delivery excellence

We offer flexible learning options, with online virtual labs, self-study, classroom, and onsite training. This approach is designed to give you the same high-quality experience whether you travel to a training center, learn online, or attend the instruction at your location. Hewlett Packard Enterprise has more than 90 education centers worldwide, offering state-of-the-art classrooms with courses delivered in multiple languages.

Innovation

We have imbibed a culture of continuous innovation to bring you cutting-edge courses, advanced learning methodologies, and innovative training technologies.

Why HPE Education Services?

Proven leadership in IT education

- Recognized as an IDC MarketScape leader for IT education, 2013¹
- Over 35 years of global training delivery experience, with 10+ years of remote training delivery
- Named a 2014 IDC MarketScape leader² in IT education in cloud, security, Big Data, storage, IT Infrastructure Library (ITIL) or IT service management (ITSM), project management training, after being recognized in 2013 for being an IDC MarketScape leader in IT education overall named on 2014 Top 20 IT Training Companies³

Right training for the new style of IT

- Learn from the very experts who create, manage, and enhance HPE proprietary technologies and solutions
- Training for the new mega trends of cloud, security, mobility, and Big Data

Key partnerships with industry leaders

- Collaboration and trusted partnerships with industry leaders—OpenStack®, PMI, ITIL, VMware, Microsoft®, Linux®-CSA, and (ISC)²—supporting their training and certification needs

End-to-end training solutions with educational consulting

- Customized scalable training solutions complement our standard IT training and address broader, more unique business needs including:
 - Skill assessments
 - Management of change services
 - End-user adoption
 - Training content development
 - Custom content

Flexible learning delivery

- Delivering quality and consistent training to a global customer-base of different sizes, through worldwide reach in 90+ countries
- Flexibility to learn through a wide variety of delivery modalities: traditional instructor-led training (ILT), virtual instructor-led (VILT), self-paced e-learning (SPEL), games, and simulations
- Create online meeting places with our breakthrough cloud solutions-based, feature-rich, Web-collaboration tool—HPE MyRoom

Simplified purchase options

- A variety of streamlined purchase options, tailored to fit your education and budget needs. Examples:
 - Pre-purchased training credits—HPE Training Credits allow volume purchase of training credits redeemable over a year
 - HPE Contractual Training Credits—Purchase training along with your HPE support contract
 - Per event—Pay only for the course you attend
- A variety of payment modes includes online and over the phone purchases
