Business productivity: It's as easy as 1-2-3

Small and midsize businesses face big barriers to productivity

Inefficient legacy systems

- Poor application performance
- Slow provisioning
- High operating costs

40%-50%

of U.S. SMBs cite their top business concern as improved efficiency/productivity.¹

Ineffective collaboration

- Too many disconnected tools
- Poor user experience
- Outdated systems

78%

of firms want a unified communications (UC) solution that allows for flexible work styles and anytime, anywhere access to information.²

Disjointed communication

- Sluggish wireless performance
- Multiple management tools
- Security risks on mobile devices

52%

of total email opens occurred on a mobile phone or tablet in Q2 2015³

Follow these three steps to higher productivity

1

Deploy modern IT systems

- Accelerate application performance
- Compile and analyse data faster
- Reduce backup and recovery times

2

Unify your collaboration tools

- Leverage a common environment
- Enable faster, better decisions
- Facilitate employee teamwork

3

Enable your mobile workforce

- Secure and reliable access for BYO-everything
- Improved application delivery
- Simplified network management

Get there today with Hewlett Packard Enterprise **Just Right IT** solutions

Efficient server and storage systems backed by expert support
