

# Converged Infrastructure Solution Sizer Suite

## Solution Sizer Overview

Hewlett Packard Enterprise Solution Sizers are automated tools that assist with recommending a solution environment. Sizers are downloaded and run on the user's personal computer. Updates with the latest information on Hewlett Packard Enterprise hardware and solution software are available automatically when the user is connected to the Internet and may optionally be installed by the user.

## Features of the Converged Infrastructure Solution Sizer Suite (CISSS)

1. Use the Sizer Manager to list the HPE Solution Sizers and select which ones to install.
2. Size an application solution using one of the installed Solution Sizers
3. Combine application solutions after two or more solutions have been sized and saved.
4. Size an HPE ConvergedSystem solution.
5. Size starting with a Reference Architecture.
6. Calculate power requirements for a solution using HPE Power Advisor.
