

Activating your Proactive Care Service

Thank you for purchasing HPE Proactive Care Service.

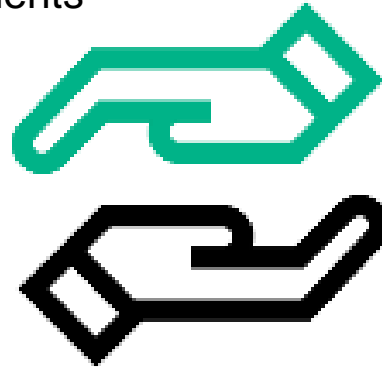

**Hewlett Packard
Enterprise**

Soon, you will receive an [activation letter](#) with your unique coverage details.

You will need to activate your Proactive Care Contract to receive full benefit of this support.

Step 1: Link your Support Agreements

You will be asked to login to HPE Support Center and Link your Support Agreements to establish your private access to your report information.

Step 2: Get Connected

Connect your devices to HPE to enable health checks of your supported devices, real time monitoring for problems and automated support case creation.

For more information visit Proactive Care Central
