

# HPE Converged Datacenter Infrastructure Interactive Demo

Helping HPE Partners demonstrate and sell Converged Datacenter Infrastructure Solutions

**Designed for:**

- Trade shows
- Conferences
- Seminars
- Sales meetings
- Demo centers
- Sales offices
- Executive meeting centers
- Corporate lobbies

## The HPE Converged Datacenter Infrastructure Interactive Demo, sponsored by Intel

Demonstrating HPE Converged Datacenter Infrastructure solutions has never been easier, more cost-effective, or more impactful. The HPE Converged Datacenter Infrastructure Interactive Demo enables more business discussions instead of just “equipment showing” – with the “wow” factor of an interactive demo experience. With simple touchscreen navigation, you can showcase a variety of HPE Converged Datacenter Infrastructure configurations running on Intel® processors, highlight their solution benefits, demonstrate system scalability, and even add your own customized messaging.

## The fully assembled and ready-to-use system delivers:

- High-impact customer presentations
- Customizable services messaging
- Easy touchscreen navigation
- Multiple configuration options for your specific sales needs
- Push updates for the latest software release, features, and messaging so your demo is up-to-date all the time

## Use HPE MDF to increase your sales impact

HPE Partners can use HPE Market Development Funds (MDF) to purchase the HPE Converged Datacenter Infrastructure Interactive Demo—adding to your bottom-line business value.

## The attention-grabbing HPE Converged Datacenter Infrastructure Interactive Demo ships with everything you need

### Hardware

- 42U Rack
