

QuickSpecs

HP Business Data Warehouse Appliance

Overview

Front View:

1. Quick removal access panel
2. Five Hot-plug fans (standard)
3. Intel Six-Core Processor (Includes two processors)
4. Eighteen slots for DDR3 Registered Memory
5. SAS/SATA drive cage
6. SAS/SATA drive cage
7. Power on/standby button, video connector and two USB connectors
8. System Insight Display
9. Removal media bay
10. 9 Available PCI-Express Gen2 slots

Rear View:

1. Mouse connector
2. Keyboard connector
3. Serial connector
4. iLO 2 connector
5. Two USB connectors
6. 9 Available PCI-Express Gen2 expansion slots; PCI-X (optional)
7. PCI-X Expansion slot riser bay
8. Four NIC connectors
9. Video connector
10. Power supply bay 2
11. Add back in power supply bay 1 (populated)

At A Glance

The HP Business Data Warehouse Appliance, optimized for Microsoft® SQL Server® 2008 R2 Enterprise edition was designed in partnership with Microsoft, and is optimized, tuned and integrated to deliver high performance, throughput, and capacity for data marts and small-scale data warehouses

Taking the guesswork out of the hardware and architectural decisions for data warehouses with these requirements, the HP Business Data Warehouse Appliance is built on the HP ProLiant DL370 (4U rack optimized chassis) to deliver industry-leading management tools, leading performance, and the latest energy efficient technologies for data warehouse workloads with light concurrency usage profiles, and data warehouse volumes of up to 5 TB (based on 3.5 compression).

The HP Business Data Warehouse Appliance includes (PN 652632-B21):

- **Processor**

Overview

- (2) Intel® Xeon® X5675 (3.06GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processors
- **Cache Memory**
 - 12MB (1 x 12MB) L3 cache
- **Memory**
 - 96GB (12 x 8GB) RDIMM
- **Network Controller**
 - HP NC375i Integrated Quad Port Multifunction Gigabit Server Adapter
- **PCI-Express Slots**
 - 10 PCI-Express Gen2 expansion slots - (6) available
- **Storage Controllers**
 - HP Smart Array P410i/1 GB with FBWC
 - HP Smart Array P410/1GB with FBWC
 - HP Smart Array P812/1G with FBWC
- **Hard Drives**
 - (2) 300GB 6G SAS 10K rpm SFF Drives
 - (22) 600GB 6G SAS 10K rpm SFF Drives
- **Internal Storage**
 - (3) 8 bay, SFF drive cages installed with (2) SFF SAS HD Bays (300 GB) and (22) SFF SAS (600 GB)
- **Power Supply**
 - (2) HP 750W Common Slot High Efficiency Power Supply Kits (hot plug, redundant)
- **Fans**
 - (5) Fully Redundant Hot Plug Fans
- **Software**
 - Microsoft Windows Server® 2008 R2 SP1 Enterprise Edition (including license)
 - Microsoft SQL Server 2008 R2 Enterprise edition (license required)
- **Insight Control**
 - HP Insight Control No Media single server license, including 3 years of 24x7 Technical Support and Updates
- **Support**
 - 3 year HP Support Plus 24 (24X7 hardware and software support with 4 hour on-site hardware response time)
- **Deployment**
 - Sliding rails for in rack servicing ship standard
- **Form Factor**
 - 4U Rack

How to Order

How to order the HP Business Data Warehouse Appliance The method for purchasing is simple. You need only order one SKU to get a complete solution which includes preconfigured hardware and software components from HP, operating system and application software from Microsoft, and 3 years of HP support.

The Business Data Warehouse Appliance (PN: 652632-B21) includes all of the HP hardware, HP software, and Microsoft Windows Server 2008 R2 SP1 Enterprise Edition and components. Microsoft SQL Server R2 2008 Enterprise edition is preinstalled and preconfigured, though customers must acquire the licenses separately. Customers may purchase those licenses from HP, other suppliers, or leverage previously purchased volume licenses. In addition, 3 year HP Support Plus 24 (24x7 hardware and software support with 4 hour on-site hardware response time) covering all components of the appliance, including Microsoft software (Windows Server 2008 R2 SP1 Enterprise Edition and SQL Server 2008 R2 Enterprise edition).

Standard Features

HP Business Data Warehouse Appliance software

The HP Business Data Warehouse Appliance comes standard with software from both HP and Microsoft. Windows Server 2008 R2 Enterprise Edition is included, with licenses. SQL Server 2008 R2 Enterprise edition is preinstalled, licenses may be purchased from HP or other suppliers; or customers can leverage previously purchased volume licenses. HP Support Plus 24 for all components is a standard part of the solution.

The unique HP Business Data Warehouse Appliance Quick Deployment Tool automates the SQL Server 2008 R2 Enterprise edition installation tasks, as well as optimizes the software configuration to host a data warehouse. Only a few short questions need to be answered to initiate the silent installation process; and the appliance will be ready to use in less than an hour.

Also included is the HP Business Data Warehouse DDL and Data Load Wizard to assist with database creation and database loading, helping to remove complexity with the ever increasing volumes of data businesses are managing.

Plug-ins for both Microsoft System Center and HP System Insight Manager support online updates and make management easy, using tools our customers know - iLO and Onboard Administrator giving complete management capabilities even when working remotely.

NOTE: Your use of Microsoft SQL Server 2008 R2 Enterprise edition software provided on this server hardware is subject to the terms and conditions of the Volume License program agreement under which you have acquired licenses to these Microsoft products. You may not use the above software without first acquiring valid server and/or client access licenses from Microsoft or its authorized distributor or reseller. For more information see <http://www.microsoft.com/sqlserver/en/us/get-sql-server/how-to-buy.aspx> Microsoft Windows Server 2008 R2 Enterprise Edition software provided on this server hardware is subject to the Microsoft Software License Terms provided to you by Hewlett-Packard Company or its authorized reseller. The genuine Certificate of Authenticity label affixed to the server hardware identifies licensed software

Processor Intel® Xeon® X5675 (3.06GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processor

Cache Memory 12MB (1 x 12MB) Level 3 cache

Chipset Intel® 5520 chipset

QuickSpecs

HP Business Data Warehouse Appliance

Standard Features

Memory	Type	DDR3 Registered (RDIMM)
	Standard	96GB (12 x 8GB) RDIMM

NOTE: The memory speed is 1333MHz.

Network Controller	HP NC375i Integrated Quad Port Multifunction Gigabit Server Adapter
---------------------------	---

Expansion Slots

NOTE: Six (6) available PCI-Express Gen2 expansion slots to provide you with the latest I/O performance.

Expansion Slots #	Technology	Bus Width	Connector Width	Form Factor	Notes
1	PCIe	x4	x8	Half length, full height	
2	PCIe2	x4	x8	Full Length/Full Height	
3	PCIe2	x16	x16	Full Length/Full Height	Utilized by P410/1G FBWC
4	PCIe2	x4	x8	Full Length/Full Height	
5	PCIe2	x4	x8	Full Length/Full Height	
6	PCIe2	x8	x16	Full Length/Full Height	Utilized by SAS Expander Card
7	PCIe2	x4	x8	Full Length/Full Height	
8	PCIe2	x16	x16	Full Length/Full Height	Utilized by P812/1G FBWC
9	PCIe2	x4	x8	Full Length/Full Height	
10	PCIe2	X8	X8	Half length, full height	Utilized by NIC controller NC375i

Storage Controllers	HP Smart Array P410i/1G FBWC Controller
	HP Smart Array P410/1G FBWC Controller
	HP Smart Array P812/1G FBWC Controller

Internal Storage Devices	Diskette Drive	None Ship Standard
	Hard Drives	(2) 300GB 6G SAS 10K rpm SFF Drives (Ships Standard) (22) 600GB 6G SAS 10K rpm SFF Drives (Ships Standard)
	Hard Drive Bays	(24) SFF SAS Hard Drive Bays Standard

NOTE: Three 8 SFF drive cages standard.

QuickSpecs

HP Business Data Warehouse Appliance

Standard Features

Interfaces

Serial	1 (rear)
Video	1 (+1 front video on rack models)
Network RJ-45 (Ethernet)	4 (rear)
ILO 2.0 remote management port	1
Keyboard	1
Pointing Device (Mouse)	1
SD slot	1
USB 2.0 Ports	5 (2 on the rear, 2 on the front, 1 internal)
Dedicated USB 2.0 Port	1 (available for DAT USB tape connectivity)

NOTE: Internal USB ports are optimal for the attachment of HP DAT USB Internal Tape Drives

Industry Standard Compliance

ACPI V2.0 Compliant
 PCI-Express Gen2
 PXE Support
 WOL Support
 Microsoft® Logo certifications
 USB 2.0 Support
 SMBIOS 2.6.1

Server Power Cords

High voltage power cord ships standard with all part numbers. Localized cables included with geographic specific models in other world regions.

NOTE: ProLiant DL servers no longer ship standard with NEMA power cords (187335-001) that allow connection to 110V US wall outlets in a home or office. ProLiant DL servers are primarily connected to PDU's in data center racks so they now ship standard with only a PDU power cord (416151-B21). If a user wishes to power a ProLiant DL server using a 110V receptacle (NEMA-15), the above NEMA power cord must be ordered separately.

Common Slot Power Supplies

The Common Slot (CS) Power Supply provides the customer with commonality in power supplies across multiple platforms to save on the cost of spares and allows HP to offer multiple power solutions to fit the customers' needs. Many HP ProLiant Servers come with or are compatible with high-efficiency HP CS Power Supplies. These power supplies are designed to provide high-efficiency power without degrading performance of the ProLiant server. All HP Common Slot power supplies are hot-plug and meet the requirements for UL and CE Mark Compliance.

It is highly recommended that you use the HP Power Advisor in defining the "Right-Size" power supply for your needs.

HP's ProLiant Common Slot Power supplies (750W) meet multiple Energy Efficiency Initiatives including Climate Savers Computing Initiative (CSCI) GOLD and ECOS Consulting/80PLUS GOLD certifications.

Standard Features

System Fans (5) Hot Plug redundant fans ship standard

Operating System Microsoft Windows Server 2008 R2 SP1 Enterprise Edition
NOTE: For more information on HP's Certified and Supported ProLiant Servers for OS and Virtualization Software and latest listing of software drivers available for your server including how to purchase from HP, please visit our OS Support Site at: <http://www.hp.com/go/ossupport> and our driver download page <http://www.hp.com/support/ML370G6>.

Required Cabling For storage device cabling information, refer to the HP ProLiant DL370 G6 Server User Guide: http://www.hp.com/support/DL_ML370G6_UG_en

Graphics Integrated ATI RN50, 64 MB video standard

- 16 bit color: maximum resolution of 1600 x 1200
- 32 bit color: maximum resolution of 1280 x 1024

NOTE: Maximum resolution available via iLO 2 remote console is 1280 x 1024.

Graphics Cards: Supports up to 3 x 300W Graphic Cards via HP ML370 G6 and DL370 G6 Graphic Card Cable Kit, 537721-B21

NOTE: Please see the HP Power Advisor for estimated power consumption of your individual system configuration prior to installing GPUs. The HP Power Advisor is located at: www.hp.com/go/hppoweradvisor.

NOTE: 2 PCIe Gen2 x16 (mechanical/electrical); 1 PCIe Gen2 x16 (mechanical) x8 (electrical)

Form Factor 4U Rack Optimized Chassis and (7 in, 17.8 cm)
NOTE: Redesigned 4U Rack Optimized Chassis to better meet our customer's density requirements.

HP Insight management software HP Insight Control

HP Insight Control, included with every HP Business Data Warehouse Appliance, delivers essential infrastructure management that can help save time and money by making it easy to deploy, migrate, monitor, remote control, and optimize your IT infrastructure through a single, simple management console.

HP Insight Control includes one year of 24 x 7 HP Software Technical Support and Update Service ensuring rapid access to HP support staff and proactive delivery of software updates. For more information about this service, please visit: <http://www.hp.com/services/insight>.

HP Integrated Lights-Out (iLO)

HP Integrated Lights-Out (iLO) simplifies server setup, health monitoring, power and thermal control, and lights-out remote administration of ProLiant ML, DL, and BL servers. HP iLO functions without additional software and can be accessed from any location via a web browser. HP iLO works hand-in-hand with HP Systems Insight Manager, Insight Control suites, and Insight Dynamics for ProLiant, helping customers unleash the value of the ProLiant platform and deliver the highest possible quality of IT service. For more information, visit: www.hp.com/go/iLO

Standard Features

HP Insight Foundation

Managing the growing number of servers can be complex and expensive for your organization. IT managers need to address changing business needs with tools that meet the challenges of managing today's complex Datacenters.

HP provides management solutions that are designed to simplify a server's installation, configuration and maintenance throughout the entire server lifecycle. This provides the customer with higher levels of operational efficiency and highly reliable systems: www.hp.com/go/foundation.

The foundation pack includes:

- HP SmartStart
- HP Management DVD
- HP ProLiant Smart Update Firmware DVD

SmartStart version supported (minimum): SmartStart 8.20
<http://www.hp.com/servers/smartstart>

Configuration Information - Factory Integrated Models

NOTE: This section lists the standard features included in the HP Business Data Warehouse Appliance

NOTE: All components are factory integrated.

NOTE: Software is preinstalled and preconfigured. Licenses are not included for SQL Server 2008 R2 Enterprise edition and must be ordered separately.

NOTE: 3 year HP Support Plus 24 is included for the HP components and may be upgraded to higher support levels

Step 1: Order HP's Business Data Warehouse Appliance

HP Business Data

HP Business Data Warehouse Appliance

652632-B21

Warehouse Appliance

HP Business Data Warehouse Appliance configuration includes the following:

- **Processor**
 - (2) Intel® Xeon® X5675 (3.06GHz/6-core/12MB/95W, DDR3-1333, HT, Turbo 2/2/2/2/3/3) Processors
- **Cache Memory**
 - 12MB (1 x 12MB) L3 cache
- **Memory**
 - 96GB (12 x 8GB) RDIMM
- **Network Controller**
 - HP NC375i Integrated Quad Port Multifunction Gigabit Server Adapter
- **PCI-Express Slots**
 - 10 PCI-Express Gen2 expansion slots - (6) available
- **Storage Controllers**
 - HP Smart Array P410i/1 GB with FBWC
 - HP Smart Array P410/1GB with FBWC
 - HP Smart Array P812/1G with FBWC
- **Hard Drives**
 - (2) 300GB 6G SAS 10K rpm SFF Drives
 - (22) 600GB 6G SAS 10K rpm SFF Drives
- **Internal Storage**
 - (3) 8 bay, SFF drive cages installed with (2) SFF SAS HD Bays (300 GB); (22) SFF SAS (600 GB)
- **Power Supply**
 - (2) HP 750W Common Slot High Efficiency Power Supply Kits (hot plug, redundant)
- **Fans**
 - (5) Fully Redundant Hot Plug Fans
- **Software**
 - Microsoft Windows Server® 2008 R2 SP1 Enterprise Edition (including license)
 - Microsoft SQL Server 2008 R2 Enterprise edition (license required)
- **Insight Control**
 - HP Insight Control No Media single server license, including 3 years of 24x7 Technical Support and Updates
- **Support**
 - 3 year HP Support Plus 24 (24x7 hardware and software support with 4 hour on-site hardware response time)
- **Deployment**
 - Sliding rails for in rack servicing ship standard
- **Form Factor**
 - 4U Rack

Configuration Information - Factory Integrated Models

Step 2: Choose HP Care Pack Support

HP Service and Support 3year HP Support Plus 24 is included with HP Business Data Warehouse Appliance. Customers have the opportunity to upgrade to Proactive 24 Service or Critical Service, or to add Proactive Select to these reactive support Care Packs.

To upgrade support levels, one of the following support offers may be selected:

- **HP Support Plus 24 - 4yr or 5yr**
 - For a higher return on your server and storage technology, our 3-year combined reactive support service delivers integrated onsite hardware/software support services available 24x7x365, including access to HP technical resources, 4-hour response onsite hardware support and software updates.
- **HP Critical Advantage - 3yr, 4yr, or 5yr**
 - Provides an assigned account team to deliver support and maintain uptime of business-critical, virtualized environments. An end-to-end infrastructure support solution (x86 server, OS/hypervisor, storage and network support), Critical Advantage provides flexible reactive hardware service levels, proactive services, and access to the Global Mission Critical Solution Center for business critical applications running on virtualized x86 infrastructures. Choose between Level 2 for 24x7 reactive or Level 3 for 6 hour Call-to- Repair.
- **HP Proactive 24 Service - 3yr, 4yr or 5yr**
 - Provides improved stability, availability and operational effectiveness with an integrated hardware and software support service that combines industry-leading reactive technical assistance with proactive account services, giving your IT manage support from a team of service specialists.
- **HP Critical Service - 3yr, 4yr or 5yr**
 - Provides comprehensive proactive and reactive support designed for businesses that run essential mission-critical applications where downtime is not an option.
- **HP Proactive Select - 3yr, 4yr, or 5yr**
 - Provides an assigned account support manager focused on technical and operational improvements specific to your business environment and proactive service credits that can be redeemed for the service activities of your choice. In addition, you can select HP Priority Connect as an HP Proactive Select menu option to gain priority incident-based access to expert reactive support from the HP Global Mission Critical Solution Center.

	SAS Connectivity	Mini SAS 4i connectors 4 Mini SAS 4x connectors
	SAS Link Rate	SAS protocol: 6 Gb/s, 3 Gb/s, or 1.5 Gb/s
	SAS Performance	Controller supports a maximum of 4.8 GB/s maximum bandwidth in each direction (allocated across all the connectors)
	RAID Cache	1 GiB capacity (not all of which is available for user data) 64-bit data width with 8-bit error correcting code (ECC) 64-bit data width with 8-bit error correcting code (ECC) Flash-backed on power loss Tether to capacitor pack Removable
	RAID Cache Bus Speed	DDR2-800 (6.4 GiB/s maximum bandwidth)
	Software upgradeable Firmware	Yes
	Maximum Drive Count	108 drives (e.g., 108 TB with 108 x 1 TB SATA 3.5" MDL HDD) support
	System Memory Addressing	64-bit, supporting servers memory space greater than 4 GiB
	RAID Support	RAID 6 (Advanced Data Guarding) RAID 60 RAID 5 (Distributed Data Guarding) RAID 50 RAID 1+0 (Striping & Mirroring) RAID 1 (Mirroring) RAID 0 (Striping)
	Upgradeable Firmware	Flashable ROM with redundant firmware images

NC375i Integrated Quad Port Multifunction Gigabit Server Adapter	Network Interface Compatibility	10Base-T/100Base-TX/1000Base-TX		
	Data Transfer Method	PCI Express, four lanes (x4)		
	Controller	Qlogic/NetXen NX3031		
	Network Transfer Rate	10Base-T (Half-Duplex)	10 Mb/s	
		10Base-T (Full-Duplex)	20 Mb/s	
		100Base-TX (Half-Duplex)	100 Mb/s	
		100Base-TX (Full-Duplex)	200 Mb/s	
		1000Base-TX (Half and Full-Duplex)	2000 Mb/s	

QuickSpecs

HP Business Data Warehouse Appliance

Technical Specifications

Connector	RJ-45	
Cable Support	10Base-T	Categories 3, 4 or 5 UTP up to 328 ft (100 m)
	100Base-TX	Category 5 or higher UTP; up to 328 ft (100 m)
	1000Base-TX	Category 5 or higher UTP; up to 328 ft (100 m)

HP Integrated Lights-Out 2 (iLO 2) integrated on system board	Architecture	32-bit PCI-based health and remote management ASIC
	Processor	32-bit RISC processor core running at 66MHz
	Upgradeability	Option firmware upgradeable via Flash ROM
	Operating System Support	Microsoft Windows Server 2008 Enterprise Edition (32bit and 64bit)
	Client Browser Support	Microsoft Internet Explorer 7 Microsoft Internet Explorer 6 Firefox 3.5 (on supported Windows and Linux systems) Firefox 3.0 (on supported Windows and Linux systems)
	Command Line Support	Telnet, Secure Shell and serial port access Secure Socket Layer Secure Shell version 2 (Password and certificate)
	Security	Advanced Encryption Standard (AES) and Triple Data Encryption Standard (3DES) on browser, CLP and XML scripting interface RC4 encryption of video
	Directory Support Services	Active Directory v1.0 (Windows 2003)
	Driver Support	Health Driver (HP ProLiant iLO 2 Management Controller Driver) iLO Management Channel Interface Driver
	Management protocols supported	SNMP 2, IPMI 2.0 (KCS interface), DMTF Server Management Command Line Protocol Specification (SM CLP), DMTF Web Services Management Specification (WS Management)

Environment-friendly Products and Approach	End-of-life Management and Recycling	Hewlett-Packard offers end-of-life HP product return, trade-in, and recycling programs in many geographic areas. For trade-in information, please go to: http://www.hp.com/go/green . To recycle your product, please go to: http://www.hp.com/go/green or contact your nearest HP sales office. Products returned to HP will be recycled, recovered or disposed of in a responsible manner.
---	---	--

The EU WEEE directive (2002/95/EC) requires manufacturers to provide treatment information for each product type for use by treatment facilities. This information (product disassembly instructions) is posted on the Hewlett Packard web site at: <http://www.hp.com/go/green>. These instructions may be used by recyclers and other WEEE treatment facilities as well as HP OEM customers who integrate and re-sell HP equipment.
