

HPE XP Storage Replication Management HK906S

HPE course number	HK906S
Course length	3 days
Delivery mode	ILT
View schedule, local pricing, and register	View now
View related courses	View now

This 3-day course introduces students to the HPE XP7 and P9500 disk array replication solutions. The course will cover Business Copy Full Copy, Business Copy Fast Snap Snapshots, Continuous Access Synchronous, Continuous Access Journal, and XP7 High Availability replication. Students will learn to use Remote Web Console, RAID Manager and Command View XP Advanced Edition Replication Manager to manage and monitor replication pairs. Hands-on labs will re-enforce the lectures.

Why HPE Education Services?

- IDC MarketScape leader 4 years running for IT education and training*
- Recognized by IDC for leading with global coverage, unmatched technical expertise, and targeted education consulting services*
- Key partnerships with industry leaders OpenStack®, VMware®, Linux®, Microsoft®, ITIL, PMI, CSA, and (ISC)²
- Complete continuum of training delivery options—self-paced eLearning, custom education consulting, traditional classroom, video on-demand instruction, live virtual instructor-led with hands-on lab, dedicated onsite training
- Simplified purchase option with HPE Training Credits

Audience

- Storage administrators

Prerequisites

- HPE XP Storage Administration and Configuration (HK905S)

Course objectives

At the conclusion of this course you should be able to:

- Understand HPE disk array replication solutions
- Understand the functionality of Business Copy and Business Copy Fast Snap Snapshots

- Configure Continuous Access Synchronous and Continuous Access Journal
- Describe and list the configuration steps for XP7 High Availability
- Understand the configuration and use of RAID Manager for managing Business Copy and Continuous Access
- Describe the use of Command View Advanced Edition Replication Manager in conjunction with Business Copy, Continuous Access, and XP7 High Availability

Benefits to you

- Gain the knowledge and valuable hands-on experience needed to administer the XP array replication software

*Realize Technology Value with Training, IDC Infographic 2037, Sponsored by HPE, January 2016

Detailed course outline

Module 1: Replication Solutions for the XP

- Business Copy
 - Business Copy Fast Snap
 - Continuous Access Synchronous
 - Continuous Access Journal
 - XP7 High Availability
 - Command View Advanced Edition Replication Manager
 - Cluster solutions
 - Solutions and integrations
-

Module 2: Business Copy

- Overview
 - State and state transitions
 - Commands
 - Mirror unit tables
 - Managing cascades
 - Swap and freeze
 - Host performance
 - At-time split function
 - GUI review
-

Module 3: RAID Manager for Business Copy

- Overview
 - Function
 - RAID Manager instance
 - Installation
 - Configuration
 - Hitachi Online Remote Configuration Manager (HORCM)
 - RAID Manager configuration file
 - Business Copy pairs
-

Module 4: Snapshot and Fast Snap

- Overview
 - Architecture
 - Installation
 - Configuration
-

Module 5: Continuous Access (CA) Synchronous and Journal

- CA concepts
 - CA synchronous operations
 - CA synchronous configuration
 - CA Journal operations
 - CA Journal configuration
-

Module 6: RAID Manager for Continuous Access

- Overview
 - Configuration
 - Pair commands
-

Module 7: XP7 High Availability (HA)

- Solution Topologies
 - HA Requirements
 - XP7 HA setup walkthrough
-

Module 8: Replication Manager (RM)

- Features
 - Architecture
 - RM monitoring
 - Integrated pair management
 - Replication Manager Alerts
-
