

HP Education Services Course Overview

Advanced HP Converged Infrastructure Networking (H1L30S)

This 3-day course focuses on the use of the Command Line Interface (CLI) supported by Virtual Connect modules for configuring and monitoring more advanced network connectivity and operational aspects.

Audience

An HP employee, a channel partner or a customer who needs to learn how to describe position and demonstrate advanced HP Virtual Connect capabilities.

Prerequisites

HP BladeSystem Administration HE646S or
ATP BladeSystem Solution Integrator HH707S.

Benefits to you

Various new features found in version 4.0 of the Virtual Connect Firmware are covered. The course also describes the HPN data center switch CLI for configuring and managing these switches. You will also learn SAN topics for iSCSI and VC direct attach to 3PAR.

Content

- Data center network architectures
- Virtual Connect Advanced Topics
- Server virtualization in a Virtual Connect environment
- HP Data Center Core (DCC) switch concepts
- Virtual Connect SAN topics
- Intelligent Management Center
