

HP Education Services Course Overview

Configuring Advanced Windows Server 2012 Services MOC20412 (H4D02S)

This 5-day course is part three of a series of three courses that covers implementing a core Windows Server 2012 infrastructure in an existing enterprise environment. This course builds on course 20410 and 20411 and primarily covers advance configuration and service tasks for deploying, managing and maintaining a Windows Server 2012 infrastructure.

Audience

This course is intended for IT Professionals with hands-on experience implementing, managing and maintaining a Windows Server 2012 infrastructure in an existing enterprise environment, who wish to acquire the knowledge to carry out advanced management and provisioning of services within the Windows Server 2012 environment. Students are typically be experienced system administrators and should have approx. two years of hands-on experience working in a Windows Server 2008 or Windows Server 2012 environment.

Secondary audience for this course are candidates who plan to take exam 70-412: Configuring Advanced Windows Server 2012 Services, or who are aspiring to acquire the MCSA credential either in its own right or so that they can proceed to the MCSE credentials which this is a prerequisite.

Prerequisites

Hands-on experience working in a Windows Server 2008 or Windows Server 2012 enterprise environment.

Real-world experience implementing, managing and configuring AD DS and networking infrastructure in an enterprise environment.

Knowledge equivalent to courses: 20210 Installing and Configuring Windows Server 2012 (H4D00S) and 20411 Administering Windows Server 2012 (H4D01S).
