H0DM1S - Panorama Essentials – 221

Students attending this course will gain an in-depth knowledge of how to configure and manage their Palo Alto Networks Panorama Management Server. Upon completion of this course, administrators will understand the Panorama server's role in managing and securing their overall network. Network professionals will learn to depend on Panorama's aggregated reporting which will provide them with a holistic view of a network of Palo Alto Networks next-generation firewalls.

Audience

- This course is suited to Security Engineers, Network Engineers, and Support staff.

Prerequisites

- Students must have a basic familiarity with networking concepts including routing, switching, and IP addressing. Students should also be familiar with basic port-based security concepts. Experience with other security technologies (IPS, proxy, and content filtering) is a plus.

Topics Covered

Module 0 Course Introduction

Module 1 Deployment Overview

- Panorama Solution
 - Functional Overview
 - Architecture Design
- Module 2 Setup and Administration

- Installation
- Design and Planning
- Administrative Roles
- Access Control
- Commit Options

Module 3 Device Groups

- Device Groups
- Policies
- Objects
- Device Group Commits

Module 4 Templates

- Template Overview
- Configure Templates
- Commits
- Overrides

Course title:	H0DM1S - Panorama Essentials – 221
