The COBIT® 5 Foundation course is an interactive learning experience. Participants learn about the need for an IT governance framework and how COBIT addresses this need by providing the latest insights into enterprise-wide governance of IT. This course explains the elements and supporting materials of the COBIT framework, using a logical and example-driven approach for anyone interested in obtaining COBIT foundation level knowledge. The COBIT 5 Foundation exam is a prerequisite to attaining the COBIT 5 Implementation and COBIT 5 Assessor exams.

## Why HPE Education Services?

- IDC MarketScape leader 4 years running for IT education and training\*
- Recognized by IDC for leading with global coverage, unmatched technical expertise, and targeted education consulting services\*
- Key partnerships with industry leaders OpenStack®, VMware®, Linux®, Microsoft®, ITIL, PMI, CSA, and (ISC)²
- Complete continuum of training delivery options—self-paced eLearning, custom education consulting, traditional classroom, video on-demand instruction, live virtual instructor-led with hands-on lab, dedicated onsite training
- Simplified purchase option with HPE Training Credits

## Cobit 5 foundation plus

- COBIT 5 Foundation is offered as a 2-day or 3-day “Plus” course. This “Plus” course includes extra content above the exam syllabus. The third day is optional for the exam

## Audience

- A wide range of business managers, IT management consultants, IT governance professionals, and auditors who wish to gain a better understanding of COBIT 5 and what the framework can provide their organization

## Prerequisites

- There are no formal prerequisites. However, it is recommended that you have experience in the IT governance domain

## Course objectives

At the end of this course, you will gain competencies in:

- Key challenges of using IT
- IT governance concepts and benefits

- COBIT 5 framework, principles, and enablers
- Relationship between stakeholder needs and governance
- Implementation approach for the use of COBIT 5
- Structure of COBIT 5 process reference model
- Governance and management domains
- Components of COBIT 5 processes
- Need for capability assessments
- COBIT 5 ISO/IEC 15504 approach
- Application of COBIT 4 maturity model approach with COBIT 5
- Other COBIT 5 enablers for IT governance and management

## Benefits to you

At the end of this course, you will enjoy these benefits:

- Master COBIT 5 at a foundation level
- Interact and learn from peers in this intensive, group-learning exercise
- Apply COBIT in their day-to-day practice
