

HP Education Services Course Description

COBIT® 5 Foundation (HE602S)

The COBIT® 5 Foundation course is an interactive learning experience. Participants learn about the need for an IT governance framework and how COBIT addresses this need by providing the latest insights into enterprise-wide governance of IT. This course explains the elements and supporting materials of the COBIT framework, using a logical and example-driven approach for anyone interested in obtaining COBIT foundation level knowledge. The COBIT 5 Foundation exam is a prerequisite to attaining the COBIT 5 Implementation and COBIT 5 Assessor exams.

COBIT 5 Foundation Plus

- COBIT 5 Foundation is offered as a 2-day or 3-day "Plus" course. This "Plus" course includes extra content above the exam syllabus. The third day is optional for the exam.

Audience

- A wide range of business managers, IT management consultants, IT governance professionals, and auditors who wish to gain a better understanding of COBIT 5 and what the framework can provide their organization.

Prerequisites

- There are no formal prerequisites. However, it is recommended that you have experience in the IT governance domain.

Course objectives

At the end of this course, you will gain competencies in:

- Key challenges of using IT
- IT governance concepts and benefits
- COBIT 5 framework, principles, and enablers
- Relationship between stakeholder needs and governance
- Implementation approach for the use of COBIT 5
- Structure of COBIT 5 process reference model
- Governance and management domains
- Components of COBIT 5 processes
