

# ArcSight ESM 6 Administrator SkillSet Update (AEIA) H7G92S

This course is offered to any experienced ArcSight ESM administrator that would like to become familiar with the components and functionality of the new ArcSight ESM 6.0c CORR-E platform. This course provides you with the skillset when advancing to ESM 6.0c from previous versions. Information will be presented pertaining to installation and performing administrative tasks for seasoned ArcSight ESM users. This course is designed to fill the knowledge gap from previous versions to that of ESM 6.0c.

## ArcSight ESM 6 Administrator SkillSet Update (AEIA)

**Price** USD \$3,200
