

# HP Education Services Course Description

TOGAF Combined Course (H6C23S)

This 5-day course combines the Level 1 Foundation and the Level 2 Certified course and provides a comprehensive, practical understanding of TOGAF 9.

## Audience

- Individuals who require a comprehensive understanding of TOGAF 9.
- Professionals who are working in an organization where TOGAF 9 has been adopted and who need to participate in architecture projects and initiatives.
- Architects who will be responsible for developing architecture artifacts.
- Architects who wish to introduce TOGAF 9 into an architecture practice.
- Architects who want to achieve a recognized qualification to demonstrate their detailed knowledge of TOGAF 9.

## Course objectives

Upon successful completion of this course participants will learn:

- How to apply the ADM phases in development of an enterprise architecture.
- How to apply Architecture Governance in development of an enterprise architecture.
- How to apply the TOGAF Architecture Content Framework.
- How to apply the concept of Building Blocks.
- How to apply the Stakeholder Management Technique.
- How to apply the TOGAF Content Metamodel.
- How to apply TOGAF recommended techniques when developing an enterprise architecture.
- The TOGAF Technical Reference Model and how to customize it to meet an organization's needs.
- The Integrated Information Infrastructure Reference Model.
- The content of the key deliverables of the ADM cycle.
- How an enterprise architecture can be partitioned to meet the specific needs of an organization.
- The purpose of the Architecture Repository.
- How to apply iteration and different levels of architecture with the ADM.
- How to adapt the ADM for security.
- SOA as a style of architecture.
- The role of architecture maturity models in developing an enterprise architecture.
