

ITIL® Foundation for IT Service Management (with Case Study) HF422S

This course introduces the fundamentals of IT Service Management (ITSM) based on the IT Infrastructure Library (ITIL). It describes the key concepts, processes, functions and roles of the ITIL service lifecycle. The course is made up of lectures and practical assignments, which provide an interactive learning experience. This results in good awareness and comprehension of the main aspects of ITIL. The course prepares attendees for the ITIL Foundation Certificate examination.

- Competence and training (awareness)

Professional benefits

The following credits are available for this course:

- 2 credits towards ITIL Expert certification
- 20 PDUs on business and strategy

Next steps

- Courses from the lifecycle or capability streams leading to the ITIL Expert qualification

Course outline

Service Management as a practice

- Define the concept of a service and comprehend and explain the concept of Service Management as a practice.

The ITIL service lifecycle

- Understand the value of the ITIL service lifecycle, how the processes integrate with each other throughout the lifecycle, and explain the objectives, scope and business value for each phase in the lifecycle.

Generic concepts and definitions

- Define some of the key terminology and explain the key concepts of Service Management.

Key principles and models

- Comprehend and account for the key principles and models of Service Management and balance some of the opposing forces within Service Management.

Processes

- Understand how the Service Management processes contribute to the ITIL service lifecycle to explain the purpose, objectives, scope, basic concepts, activities, and interfaces of the processes.

Functions

- Explain the role, objectives, and organizational structures of the different functions.

Roles

- Account for and be aware of the responsibilities of some of the key roles in Service Management.

Technology and architecture

- Understand how service automation assists with expediting Service Management processes.

Competence and training

- Competence and skills for Service Management.

Mock exam

- Help the candidate to pass the ITIL Foundation exam.
