

HP ExpertOne Certification training from HP Education Services

Empower your people with the right training for the right outcome with Education Services

The HP ExpertOne certification program has the industry's most complete range of IT skills and expertise solutions. It provides IT professionals with a broad and deep understanding of open technology standards and multivendor environments, including networking, storage, servers, cloud systems, and more. IT professionals learn to work with business-critical technology through solutions that combine rigorous technical knowledge, business insights, and hands-on experience.

HP Education Services offers training for ExpertOne certifications. We deliver top-notch, tested, and proven technical abilities for HP products and services. We help you build your skills and knowledge to achieve certification that verifies your proficiency and professionalism.

Learner Registration

Contact the local HP Education Services office by providing the class details as shown in the following training schedule. A representative will then be in contact with you to confirm attendance and arrange payment.

At the point of registering for ExpertOne courses, you will also need to provide us your HP Learner ID. If you do not have one, you can create your HP Channel Partner Learner ID via: http://h10120.www1.hp.com/ExpertOne/learner_id.html. In case you've forgotten, you can also submit a request to resend your details via the same website.

Some of the ExpertOne courses require fulfillment of pre-requisites. You may check with the HP Education Services team on the details. Otherwise, you can also find out more via ExpertOne Certification Curriculum website: <http://h10120.www1.hp.com/expertone/certifications>

ExpertOne Exams

Before taking an exam, create a PearsonVue account (if you do not have one), and have your HP learner id on hand.

HP2 series exams are web-based and may be completed at your premises.

HP0 series exams are proctored and must be completed at a PearsonVUE testing centre near you: <http://www.pearsonvue.com/hp>
