

SharePoint 2013 Site Collection and Site Administration (20333) H8B95S

In this course, power users will gain the skills needed to perform SharePoint 2013 site collections and site administration. You will learn to plan, create, secure, administer, and customize a SharePoint 2013 portal. You'll also learn how to design a social experience in SharePoint 2013 along with using search and the role of governance.

This course incorporates materials from the Official Microsoft Learning Product: SharePoint 2013 Site Collection and Site Administration (55033).

SharePoint 2013 Site Collection and Site Administration (20333)
