HP course # HK991S

Category VMware

Duration 4 hours

Audience

Previous attendees of the VMware vSphere 6.0: Install, Configure, Manage (H9P76S) courses or VMware vSphere 6.0:What's New (H9P75S) or the vSphere 6.0 Optimize and Scale (H9P77S) classes who are considering or have already booked the VMware VCP exam. The best results will be obtained if the delegate has at least 5 days after this session to follow-up on the advice given during the seminar before taking the exam.

Prerequisites

- VMware vSphere 6.0: Install, Configure, Manage (H9P76S) or vSphere 6.0: What's New (H9P75S)
- Recommended: VMware vSphere 6.0 Optimize and Scale (H9P77S)
- A good command of English since this online seminar will be delivered in English

Course objectives

This seminar will focus on the objectives listed in the VMware VCP6-DCV Exam Foundation, Professional and Delta web pages. Many of the topics are a review of what is covered in the VMware vSphere 6.0: Install Configure and Manage and Optimize and Scale courses. The seminar also includes a summary of additional reading topics suggested in the Exam Blueprint. This online seminar is designed to ensure students are fully aware of the learning objectives they are required to get their VCP6-DCV certification. It is not a simple walk-through of VCP6-DCV test questions.

Benefits to you

This course will increase your chances of passing the VCP6-DCV certification test with technical reviews, revision strategies, question answering techniques and an open question and answer session with live expert instructor.

Next steps

- Book and pass the VCP6-DCV exam

Course outline

This seminar focuses on the objectives of the VCP6-DCV Exam Blueprint. Objectives in the following areas will be covered:

Study Advice:

- Certification Structure
- Study Strategy
- Registration Process

Exam Content:

- Installation and Upgrade
- Networking
- Storage
- Managing Virtual Machines
- Availability and Resource Management
- Monitoring vSphere
- Security
- Troubleshooting
