

Course overview

ClearPass Essentials SPEL (H0LJ8s)

The Clearpass Essentials 6.3 instructor led course provides participants with a foundation in Network Access Control using the Clearpass product portfolio. This 5-day classroom session includes both modules and labs covering major features of the Clearpass portfolio. Students will learn how to setup Clearpass as a AAA server and configure the Policy Manager, Guest, OnGuard and OnBoard feature sets. In addition, the content will cover integration with external Active Directory servers, Monitoring and Reporting, as well as deployment best practices.
