

AirWave Wireless Management Suite Installation, Configuration & Use (AICU) (01058586) HOLJ3S

This course provides the knowledge and experience required to install and use the AirWave Wireless Management Suite: AirWave Management Platform (AMP), RAPIDS, and Visual RF. Structured labs provide students individual time with the AMP server and a series of exercises that progress from monitoring single-vendor networks to the configuration and reporting of complex, multi-vendor networks. Students also learn how to integrate AirWave products into an existing network. The course is WLAN vendor neutral and assumes a heterogeneous network.

HP course # HOLJ3S

Category Networking

Duration 3 days

Audience

This course is intended for:

- Network Administrators who monitor and troubleshoot wireless networks
- Network and System Administrators responsible for installing and configuring network monitoring systems

Prerequisites

Before attending this course, students must have:

- Basic WLAN terminology and concepts
- Knowledge of wired and wireless networking design and operations
- Experience installing network monitoring software

Course outline

Module 0: Course Introduction

Module 1: Introduction to AWMS

Module 2: Installing AWMS

Module 3: Adding Devices to AWMS

Module 4: Aruba IAP-Organization and Groups

Module 5: Visual RF and Visual RF Plan

Module 6: Network Health

Module 7: Client Troubleshooting

Module 8: Rogue Detection and RAPIDS

Module 9: Managing Admin Access, Triggers, Alerts, and Reporting

Module 10: Scalability and Redundancy

Module 11: Systems Administration

Module 12: Wired Device Management

Module 13: AWS-Aruba Groups

Module 14: Configuring Aruba Devices

Module 15: Aruba IAP and templates

Module 16: Aruba IAP-Gui configuration

Module 17: Cisco Groups and Firmware update

Module 18: Cisco IOS Templates

Module 19: WLC Configuration
