REACH ("Regulation (EC) No 1907/2006 of the European Parliament and of the Council of 18 December 2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)") is a European Union (EU) chemicals regulation that entered into force on 1 June 2007, with phased deadlines to 2018.

Hewlett Packard Enterprise supports the overall REACH objective of improving the protection of human health and the environment. HPE's long standing policy is to provide products and services that are safe to use and have a low environmental impact throughout their lifecycle. HPE will meet all applicable REACH requirements and is committed to providing our customers with information about the chemicals in our products as needed to comply with REACH. HPE is working with industry and government to achieve a workable system that fulfills the goals of REACH and with our suppliers to ensure that HPE products comply with REACH.

HPE and its suppliers have taken the necessary action to meet the requirements of REACH. This includes gathering and disclosing, where necessary, information on Candidate List substances contained in HPE products.
