Course Datasheet

## **Delta - Foundations of HPE Storage Solutions**

Education Services course product number – H1RW9S

Course length – 2 days

Delivery mode – Instructor Led Training (ILT)

---

This course provides Delta training for existing V1 ATP Storage Solutions professionals to upgrade their certification to V2 ATP Storage Solutions.

This course consists of five modules, each covering a topic related to ATP Storage Solutions V2 Delta. Each module will provide you with the most current information on these topics, and resources to help you comply with these standards. Each module ends with a learning check activity.

### **Audience**

Certification holders in HPE's Partner Ready community who hold the ATP Storage Solutions V1 certification and wish to prepare to take the upgrade exam to ATP Storage Solutions V2 (ATP Upgrade: HPE0-J75 - Delta - Foundations of HPE Storage Solutions).

### **Prerequisites**

ATP Storage Solutions V1 certification (HPO-J73 - Foundations of HP Storage Solutions)

### **Course Description**

- The Storage Market and HPE's Transformation Area Market Strategy
- Network Attached Storage
- SAN Storage
- StoreOnce and Entry Level Tape Libraries
- Tools and Reference Material
