HPE Training Credits for ProLiant and CDI Services

With **HPE Training Credits for ProLiant and CDI Services (HF385E/HF385A1)** purchasing and managing training for HPE Hyper Converged systems is easier than ever. Be sure to ask your HPE Education Services Representative or your Authorized HPE Reseller to include Training Credits with your HPE Hyper Converged order.

When preparing your order, simply include the total number of training units/days to cover the courses needed for each student. Since one unit of HF385E/A1 ProLiant/CDI Training Credits is equal to one day of ProLiant/CDI/ConvergedSystem training for one student, you can easily calculate and adjust the quantity of units needed to accommodate new students or special needs.

Features and benefits of HPE Training Credits

- **Flexible**—Attend training as you need it. There is no need to know student names, dates or even locations in advance. Credits can be used to attend any training offered by HPE Education Services in the US or Canada, including open enrollment classes at HPE Education Centers, live, virtual, instructor-led classes delivered via VILT, and dedicated onsite classes.
- **Practical**—Lock in budget dollars by pre-purchasing Training Credits while funding is available.
- **Convenient**—Minimize the time and effort spent on purchasing and managing training. A single purchasing transaction sets up your HPE Training Credits. Once your Training Credits are in place, students simply enroll for classes as needed—no additional funding, purchase orders or approvals are required.
