

Elevate to world-class innovation

HPE Education Services for HPE ProLiant, BladeSystem, HPC, and mission-critical solutions

From core to cloud, HPE servers are transforming data center business expectations and economics with the world's most intelligent and secure servers.¹ Are you realizing their true potential for your business?

The right education for the right person

The **HPE Education Services** portfolio is designed to meet the specific need of each individual irrespective of whether they are new to IT or seasoned IT professionals discovering new technologies, or expanding their skill set. The curriculum falls under the following categories:

- **Awareness:** An introduction to technologies and concepts upon which to build
- **Hardware:** Learn about the architecture and capabilities of a specific HPE ProLiant server or server family
- **Administer:** Get the best out of your HPE ProLiant server with HPE OneView, HPE iLO, and HPE Insight Control
- **Connect:** Use HPE Virtual Connect to reduce complexity and costs at the server edge
- **Virtualize:** Learn the best ways to virtualize for increased agility and availability

Tap into the true potential of your HPE server solution

Whether using High Performance Computing (HPC) from HPE to overcome the barriers to supercomputing and compete in increasingly aggressive markets, or mission-critical solutions for applications that must be always on and flexible enough to realize continuous optimization and innovation, HPE server solutions let you stay ahead of new workload challenges.

The new HPE Computing Experience delivers the experience of the cloud computing with high-performing next-gen HPE servers for your data center including the world's most secure server,² optimized server performance, and HPE Scalable Persistent Memory at memory speeds with terabyte capacity.

HPE server solutions allow you to focus on key areas of IT transformation that will help you increase agility and flexibility, reduce costs, grow revenue and profits, manage risk, and improve your customers and employees' experience.

HPE Education Services for Servers—the choice to meet your needs

The breadth and depth of the HPE server portfolio offers you the flexibility of matching the workload and server to give you your desired IT outcome.

Taking advantage of the unmatched technical expertise provided by HPE Education Services, enables your team to be trained to:

- Optimize performance, scalability, and availability
- Simplify deployment, management, and maintenance
- Reduce costs and accelerate return on investment

The curriculum provided by HPE Education Services allows you to tailor the training for each team member according to specific technologies or ecosystems under their responsibility.

It enables them to take the step from using HPE technology to leveraging it for innovation on behalf of your company.

Solution brief

HPE Education Services provides a full range of training for support and management of HPE server workloads.

HPE Certification			

Anywhere, anytime education and certification

HPE Education Services makes it easy for busy IT professionals to keep up-to-date with the latest technologies. We offer the following:

- **Classroom:** Instructor-led classroom training (including on-site) in more than 90 training locations worldwide.
- **Online:** Web-based training or virtual instructor-led training for learners that need the training, but can't afford the time and expense of travel and accommodation.
- **Exams:** HPE Certification provides the recognition that learners deserve and ensures your systems are being designed, deployed, and managed to the highest standard.

Simple, flexible purchase

HPE Training Credits for ProLiant Training (HF385) and HPE Training Credits for Total Education offer ultimate flexibility with the most simple and economical way to purchase HPE training. These packages include training that can be used for any of the 200+ different scheduled instructor-led courses offered at HPE Education Centers or more than 3000 online courses. It provides the flexibility of purchasing training credits and then using them whenever required.

Why HPE Education Services?

- IDC MarketScape leader five years running for IT education and training³
- Recognized by IDC for leading with global coverage, unmatched technical expertise, and targeted education consulting services⁴
- Organizations perceive that Technology Vendors such as HPE provide better training than dedicated training firms in terms of quality, breadth and depth of offering, certification, delivery, and IT process training in addition to technical training⁵

- Key partnerships with industry leaders OpenStack®, VMware, Linux, Microsoft, ITIL®, PMI, and CSA
- Complete continuum of training delivery options—self-paced e-learning, custom education consulting, traditional classroom, video on-demand instruction, live virtual instructor-led with hands-on lab, dedicated on-site training
- Simplified purchase option with Training Credits
