Interactive sessions

The HPE Customer Engagement Center in Houston offers highly personalized briefings tailored to address your critical business challenges and initiatives. Through collaborative discussions, demonstrations, tours, and workshops, HPE executives and subject matter experts assist in inspiring innovative strategies, identifying solutions, and developing plans to achieve your desired business outcomes. The 12,500 square foot center features key spaces a Workshop room, the Gallery for interactive discussions driven by your interests and business needs, and TechWorks data center a technology and solutions showcase.

During your briefing, HPE executives and subject matter experts can help you explore a wide range of topics, including:

Accelerating Digital Transformation

- Simplifying Hybrid IT (Cloud, Software-Defined and Data)
- Powering the Intelligent Edge (Mobility and IoT)
- Services for Digital Transformation (HPE Pointnext)
- Behind-the-scenes IoT and R&D lab tours
- Service and solution demonstrations
- Technology deep dives
- Industry solutions
- Server refresh

Data center demonstrations
