VILT—Virtual Instructor-Led Training

Live instructor led training delivered to your desk
—home, office, anywhere

VILT (Virtual Instructor-Led Training) delivers live interactive instruction, including hands-on labs, in real-time over the internet. VILT combines the best of classroom training and the best of online training to deliver the highest quality learning experience regardless of your location. Based on HPE MyRoom technology, VILT provides the in-depth, quality training you need without the travel and 'out-of-office' time.

VILT features

- Secure, live remote instruction
- Innovative virtual classroom features
 - Desktop and application sharing
 - Breakout rooms
 - Public and private chat
 - Student polling and other participation tools
- Real-time access to live systems for labs
- Student collaboration through HPE MyRoom
- 24x7 virtual delivery technical support

Benefits of VILT

- Eliminate the high cost of travel
- Reduce time out of the field and stay connected with your office while attending training
- Experience the same high quality HPE course content and materials as in our classroom environment
- Learn from HPE technical experts and professional instructors
- Benefit from extended lab practice time
- Take advantage of a wider choice of course schedules
