Test drive the HPE Race to Results Project Management Simulation in ½ a day! This comprehensive, multiple project simulation is an exciting high energy team activity that clearly illustrates the business benefits of project management. This experiential learning, facilitated by the world of motor racing, causes breakthrough understanding of how multiple projects can be orchestrated to maximize bottom line enterprise results.

Why HPE Education Services?

- IDC MarketScape leader 4 years running for IT education and training*
- Recognized by IDC for leading with global coverage, unmatched technical expertise, and targeted education consulting services*
- Key partnerships with industry leaders OpenStack®, VMware®, Linux®, Microsoft®, ITIL, PMI, CSA, and (ISC)²
- Complete continuum of training delivery options—self-paced eLearning, custom education consulting, traditional classroom, video on-demand instruction, live virtual instructor-led with hands-on lab, dedicated onsite training
- Simplified purchase option with HPE Training Credits

Audience

- This course is designed to be adaptable to fulfill specific needs of Executives, Senior Managers and Project Sponsors requiring a broad yet focused understanding of project management, but without the time to devote to longer training sessions

Prerequisites

- Project management experience is helpful but not required
- Project team experience is desirable

Course objectives

This ½-day seminar is an ideal tool for those who want to review the benefits of project management and get organizational buy-in as well as understand the basic concepts and terminology. As a result, participants should be able to:

- Understand how project management can facilitate alignment of projects to business objectives
- Recognize the requirements and advantages of project management best practices
- Apply best practices to enhance project delivery
- Achieve results while working within project constraints

* Realize Technology Value with Training, IDC Infographic 2037, Sponsored by HPE, January 2016
