Does HPE Education Services offer training credits? Absolutely. You can purchase training credits which are valid for 12 months to help secure your training budget.

Does HPE Education Services offer training in regional areas? Yes. Customers can attend any one of our Hybrid\Virtual Instructor Led Training courses.

Can HPE Education Services tailor a course to suit my requirements? Yes. Please contact us with your requirements.

How do I know if this course is right for me? Please refer to the course description for topics and pre-requisites. If you are still uncertain please call our education specialist.

Have a question? Call our friendly education specialist 1800 035 520(AU) / 0800 444 460(NZ)

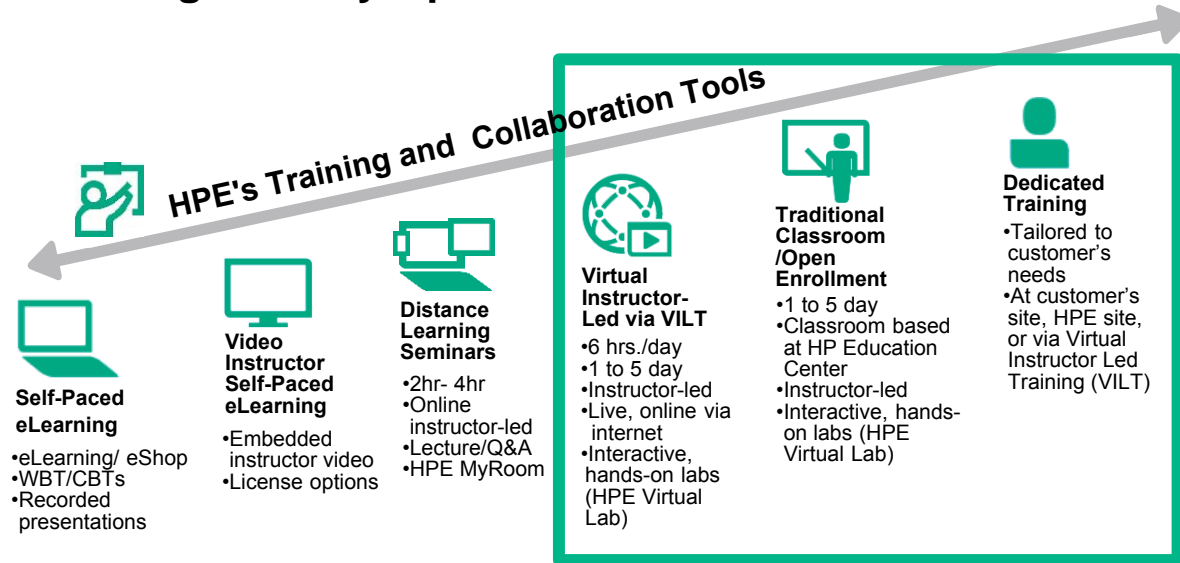

Do I need training because I have a support contract? Your support contract is like an insurance policy, in case the unexpected happens. However, it does not address the root cause of downtime: human error! Education does, as it enables personnel to utilize IT more effectively and avoid user errors.

What if I can't afford to send my people away from work for training? HPE has award-winning technologies enabling remote training to fit your needs and constraints. HPE offers instructor-led hands-on training which uses HPE Virtual Classroom and HPE Virtual Labs for delivery and requires no travel . HPE Virtual Lab also allows us to deliver classroom training at your location.

If you answer yes to any of these questions then consider HPE Education Services

- ? Are you consolidating or deploying new technology or applications?
- ? Are you worried how you will maximize the benefit of your new or upgraded technology?
- ? Are you concerned human error or unplanned downtime will impact your bottom line?
- ? Do you have any personnel changes or need to refresh employee skills?
- ? Do you need to boost IT staff productivity, motivation and retention?
- ? Have you heard about ITSM and the benefits it can provide by standardizing and structuring effective process management?
