This advanced instructor-led class provides an overview of methodologies and tools for troubleshooting Aruba based networks in an AOS 6.X environment. Labs are designed to inject problems into the student networks in a controlled fashion to demonstrate how various symptoms appear. Therefore, when problems are seen in a production environment, they will be more quickly identified and remedied.

## Why HPE Education Services?

- IDC MarketScape leader 4 years running for IT education and training\*
- Recognized by IDC for leading with global coverage, unmatched technical expertise, and targeted education consulting services\*
- Key partnerships with industry leaders OpenStack®, VMware®, Linux®, Microsoft®, ITIL, PMI, CSA, and (ISC)²
- Complete continuum of training delivery options—self-paced eLearning, custom education consulting, traditional classroom, video on-demand instruction, live virtual instructor-led with hands-on lab, dedicated onsite training
- Simplified purchase option with HPE Training Credits

## Prerequisites

- Knowledge level at the ACMP level
- Students must be comfortable with provisioning profiles for various aspects of the Aruba Controller
- The labs are written as objectives and are not documented in a step-by-step manner. Therefore, the student must know how to provision a controller without reliance upon detailed lab instructions

\*Realize Technology Value with Training, IDC Infographic 2037, Sponsored by HPE, January 2016

## Detailed course outline

---

<b>Module 1:</b>	<ul style="list-style-type: none"><li>• Troubleshooting Philosophies</li><li>• Overview of Troubleshooting tools: Debug &amp; Logs</li><li>• AP boot issues</li></ul>
<b>Module 2:</b>	<ul style="list-style-type: none"><li>• RF issues: Spectrum Analysis</li><li>• IPSec</li><li>• Remote AP</li></ul>
<b>Module 3:</b>	<ul style="list-style-type: none"><li>• Client Issues connectivity and authentication</li><li>• Captive Portal</li><li>• Role Derivation</li></ul>
<b>Module 4:</b>	<ul style="list-style-type: none"><li>• Infrastructure Issues</li><li>• Master-Local Communications</li><li>• VRRP</li><li>• Radius and DHCP</li></ul>
