

AirWave Wireless Management Suite Installation, Configuration, and Use H0LJ3S

HPE course number	H0LJ3S
Course length	3 days
Delivery modes	ILT, VILT
View schedule, local pricing, and register	View now
View related courses	View now

This hands-on course provides the knowledge and experience required to install and use the AirWave Wireless Management Suite: AirWave Management Platform (AMP), RAPIDS, and Visual RF. Structured labs provide students individual time with the AMP server and a series of exercises that progress from monitoring single-vendor networks to the configuration and reporting of complex, multi-vendor networks. Students also learn how to integrate AirWave products into an existing network. The course is WLAN vendor neutral and assumes a heterogeneous network.

Why HPE Education Services?

- IDC MarketScape leader 4 years running for IT education and training*
- Recognized by IDC for leading with global coverage, unmatched technical expertise, and targeted education consulting services*
- Key partnerships with industry leaders OpenStack®, VMware®, Linux®, Microsoft®, ITIL, PMI, CSA, and (ISC)²
- Complete continuum of training delivery options—self-paced eLearning, custom education consulting, traditional classroom, video on-demand instruction, live virtual instructor-led with hands-on lab, dedicated onsite training
- Simplified purchase option with HPE Training Credits

Audience

This course is intended for:

- Network Administrators who monitor and troubleshoot wireless networks
- Network and System Administrators responsible for installing and configuring network monitoring systems

Prerequisites

Before attending this course, students must have:

- Basic WLAN terminology and concepts
- Knowledge of wired and wireless networking design and operations
- Experience installing network monitoring software

Course outline

Module 0: Course Introduction

Module 1: Introduction to AWMS

Module 2: Installing AWMS

Module 3: Adding Devices to AWMS

Module 4: Aruba IAP-Organization and Groups

Module 5: Visual RF and Visual RF Plan

Module 6: Network Health

Module 7: Client Troubleshooting

Module 8: Rogue Detection and RAPIDS

Module 9: Managing Admin Access, Triggers, Alerts, and Reporting

Module 10: Scalability and Redundancy

Module 11: Systems Administration

Module 12: Wired Device Management

Module 13: AWS-Aruba Groups

Module 14: Configuring Aruba Devices

Module 15: Aruba IAP and templates

Module 16: Aruba IAP-Gui configuration

Module 17: Cisco Groups and Firmware update

Module 18: Cisco IOS Templates

Module 19: WLC Configuration
